Cattle Calculator App—Download for Free

The MSUES Cattle Calculator App is now available for download for Apple devices. Cattle Calculator allows beef cattle producers to make quick everyday calculations important for their operations.

Calculations related to reproductive management, animal performance, and management decisions are available. Reproductive calculations include: calving date based on a known breeding date, breeding date based on a known calving date, number of days pregnant based on today's date and a breeding date, and a breeding season calculator which provides calving and breeding dates based on a set breeding season.

Animal performance calculations include: Adjusted birth weight, weaning weight, and

yearling weight, average daily gain and required gain. Management calculation include: dosage calculations for dewormers and medicines given an animal weight and manufacturer's recommended dosage, frame score calculations, trailer stocking density, and yield grade.

You can download the app at

Mississippi BCIA Caps Available for Purchase

Help promote beef cattle improvement with a Mississippi Beef Cattle Improvement Association cap. The Mississippi BCIA is now offering for purchase caps prominently displaying the association's logo.

The caps are chocolate brown in color with tan embroidering. The front of the cap is pictured to the right. The back of the cap has the words "Beef Cattle Improvement Association" embroidered in small letters in tan thread. The cap is resizeable using a rear hook and loop enclosure on chocolate-colored cloth backing. The bill features a tan cloth perimeter sandwiched between the bill top and bottom made from the chocolate-colored fabric.

Caps are available at a price of \$15 each payable to Mississippi BCIA. To order caps, send payment, shipping address, and contact information along with a note stating that the payment is for BCIA cap purchase to:
