WHAT IS 4-H?

4-H is a global network of youth organizations whose mission is "engaging youth to reach their fullest potential while advancing the field of youth development"

Throughout the world, 4-H organizations exist in over 50 countries; the organization and administration varies from country to country. Each of these programs operates independently,

but cooperatively through international exchanges, global education programs, and communications.

The 4-H name represents four personal development areas of focus for the organization: head, heart, hands, and health. The organization has over 6.5 million members in the United States,

from ages 5 to 21, in approximately 90,000 clubs.
